

# Bristol Myers Squibb Health Equity Grants Targeting Social Determinants of Health

The grants focus on four therapeutic areas:

Cardiovascular Disease (CVD)

Hematology

Immunology

Oncology

Bristol Myers Squibb has granted nearly

# \$10M

to **17 US organizations** that support patients and are undertaking projects and programs that address the social determinants of health.

**Part of 5-year, \$150M Global Diversity, Inclusion and Health Equity Commitments**

started in 2020 to address **health disparities**, increase **clinical trial diversity**, expand **supplier diversity**, increase **workforce representation** and **enhance employee giving** in support of social justice organizations.

## Addressing Health and Social Care Needs

Health Care and Quality

Education Access and Quality

Economic Stability

Social and Community Context

Neighborhood and Built Environment
