

“Optimising AF care for the Hounslow Borough community within North West London Integrated Care System”

“Termination Statement of Joint Working Project”

Bristol Myers Squibb (BMS) on behalf of BMS-Pfizer Alliance and Chelsea and Westminster Hospital NHS Foundation Trust entered into an agreement to deliver a “Optimising AF care for the Hounslow Borough community within North West London Integrated Care System” collaborative working project.

Due to organizational changes within BMS the parties have agreed that the project will terminate early as the project objectives could no longer be met. Therefore, the joint working agreement was terminated effective 30th June 2023.

The project originally commenced in October 2022 and was terminated in June 2023.
