

# Orencia Stock Hypercare Plan (OSHP) Ordering Process For Pharmacists

Effective from Monday 22 April 2024 until further notice.

Due to limited stock of Orencia (abatacept) 125mg/mL prefilled syringe and ClickJect prefilled autoinjector, the Australian Rheumatology Association (ARA) has recommended that this stock be conserved for patients who meet certain eligibility criteria.

Bristol Myers Squibb (BMS) has developed a process to facilitate ordering for eligible patients called the Orencia Stock Hypercare Plan (OSHP).

## Ask patient for their OSHP Eligibility Form

which is provided by their treating physician (being a Rheumatologist or Immunologist)

- Eligible patients must have a form and script filled out by their treating physician
  - the patient may give you their OSHP Eligibility Form, or it may be emailed by their treating physician
- If the patient does not have the form, advise that they contact their treating physician to determine if they are eligible

## Place the Orencia (abatacept) order

- Email order and OSHP Eligibility Form to DHL at [d2mcs@dhl.com](mailto:d2mcs@dhl.com)
  - Include 'OSHP' in the email subject line
  - Include Pharmacy name, Account number, Product Description, SKU number and Quantity
  - Only one unit per patient per order, with one repeat a month
  - DO NOT include the patient's script in the email

## Patient support

- Direct patient to the Orencia GO website for resources and videos on how to administer Orencia  
**Website:** [bms.com/au/gated/OrenciaGO](https://bms.com/au/gated/OrenciaGO)    **Password:** BMSG0
- Ask the patient to keep their OSHP Eligibility Form and bring it with them when their next script repeat is required
- Alternatively, keep the OSHP Eligibility Form on record for use when ordering future repeats for the patient
