

# The Rutgers & Bristol Myers Squibb Physician Pharmaceutical Fellowship

## What is the Physician Pharmaceutical Fellowship?

- A one year program, consisting of two six-month rotations in areas such as Medical Affairs and Clinical Development.
- Mentorship by industry leaders across clinical trial research, health economics and outcomes research and medical strategy.
- Upon selection, fellows will be required to attend biweekly didactics at Rutgers University.

## Benefits:

- Key insights and training to lead a successful career in pharmaceuticals.
- Exposure to the drug development process including clinical trial planning and execution and medical strategy.
- Participate in clinical conferences in Oncology or Immunology and other training opportunities.
- Mentorship and networking with leaders in the industry.

## Interested? Key Requirements:

- An MD or DO degree
- A minimum completion of Internal Medicine, Family Medicine, or Pediatrics residencies.
- Completed fellowships in Hematology/Oncology or Immunology preferred.
