

Important Reminder: Bristol Myers Squibb (BMS) will have no influence over the program's content or development. BMS is unable to provide feedback that may shape or influence the response to the Request for Proposal (RFP). If you have questions about this RFP, please contact BMS Corporate Giving Department: Doug Miller (douglas.miller1@bms.com).

How to submit your response: Please submit your proposal online. On the page, select "Letter of Request" under "How To Apply." Then select "Consolidated Letter of Request." When submitting your request please include **reference Code: RFP-21-RD-004**.

Due date	Response due on or before January 27th, 2022. Please note that no extensions will be granted.
Rationale for RFP	BMS has sponsored the lectureships in Organic Chemistry for over 30 years. BMS aims to continue to encourage excellence in education and in research in organic synthesis.
Criteria for selection	Institution must be a research PhD granting chemistry department and have an organic chemistry focused faculty and department. Location of University must be in the US.
Award information	The Lectureships are granted annually to institutions with synthetic organic chemistry departments. The \$4,000 grant is designed to provide funding towards a lectureship program.
Selection timing	We anticipate that we will complete the selection process by the end of February.
